

Foundation Building Materials

shortage of acrylic (used in the binder for JM insulation) have increased the gap between supply and demand. Spray foam, polyiso foam and fiberglass blowing wool have also been impacted.

We expect to continue to see short supply and increased prices throughout 2021. Pricing changes are happening rapidly and across most product categories. Please know that we are working diligently to get the products that you need so we can be in the best position possible to service your work.

Thank you for your continued support during these supply-challenged times.

Sincerely,

Kirby Thompson
Sr. V.P. Sales & Marketing
